Course Data Hub

Course Master is a module used to define and manage the overall structure of a course. It acts as the basic framework of the course by specifying how the course is organized, including the number of phases, duration, and syllabus/content covered under each phase.

This section explains, step by step, how to create and configure a Course Master within the Learning Management System (LMS) — including defining the course, adding phases, uploading the syllabus, setting periods, and completing the approval workflow. A Course Master must be created and approved before a Course Serial can be generated from it.

Why is Course Master Created First?

Course Master serves as the master template of a course, defining its phases, syllabus, and content structure once so that the same structure can be reused across multiple course serials without repeated data entry.

Getting Started with Course Data Creation

Step 1: On the top-right corner of the Course Data Hub → Courses page, click the **Action** button. You will be redirected to the Add New page, where all required information must be entered in the respective fields.

The screenshot displays the 'Course Data Hub' interface. On the left is a sidebar menu with options like 'User Master', 'Course Data Hub', 'Content Library', and 'Site Settings'. The main area shows a table of courses. The table has columns for Course, Version, Ranking Group, Actual Days, Portion Available, Created By, Modified By, Approval Status, Status, and Action. Two courses are listed: 'QM/JN' and 'ALMC'. The 'Action' column for each course contains a dropdown menu with an 'Action' button. The top right of the interface shows the user's name 'Super Administrator' and a 'Root User' profile icon.

Course	Version	Ranking Group	Actual Days	Portion Available	Created By	Modified By	Approval Status	Status	Action
QM/JN	1	JCO/Other Rank	82	Contact Portion	Root User 12/08/2026	Root User 12/08/2026	Not Sent	On	Action
ALMC	1	Officer	60	Contact, DLP Portion	Root User 12/08/2026	Root User 12/08/2026	Not Sent	On	Action

Figure 1.1 – Course Data Hub: Courses list and Action button

Step 2: Enter the **Ranking Group**, **Course Name**, **Estimated Duration (in days)**, and **Portion Available**, then click **Save**. Once the information is saved successfully, the course appears in the list and is ready for a phase to be added.

Course Data Hub > Courses > Add New

Figure 1.7 – Syllabus page: Action menu (Add New / Bulk Import / Download Sample)

For Bulk Upload, click Download Sample to download the sample Excel template. Fill in the required syllabus details in the downloaded Excel file according to the format shown in the sample sheet.

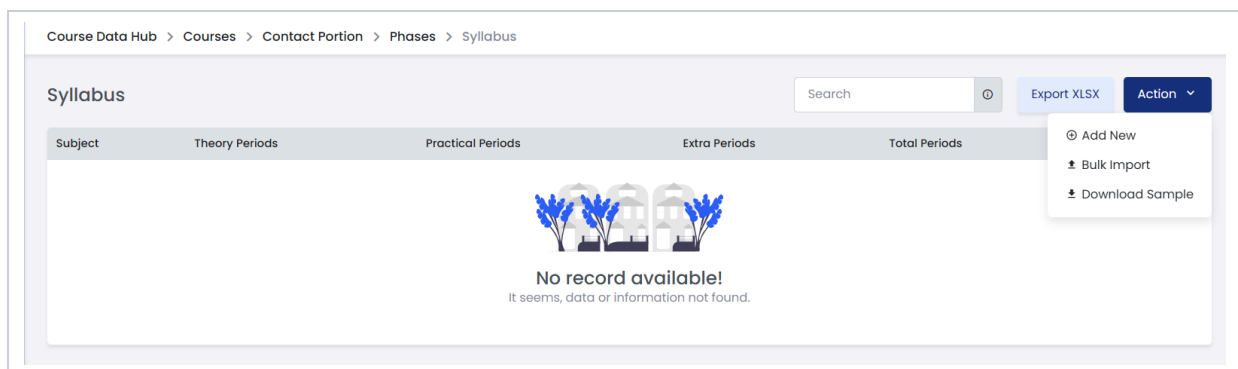

The image shows an Excel spreadsheet template for syllabus bulk upload. The columns are labeled as follows: A: Subject Name, B: Minor Subject Name, C: Topic Name, D: L Periods, E: LD Periods, F: TD Periods, G: MD Periods, H: Misc Periods, I: Extra Periods, J: Study Per, K: T Periods, L: Sub-Topic Name, M: Sub L Periods, N: LD Periods, O: TD Periods, P: SMD Periods, Q: Misc Periods, R: Extra Periods. The rows contain sample data: Row 1: Military Science, Infantry Tactics, Combat Strateg, 2, 2, 2, 2, 2, 2, 2, 2, 2, Weapon Systems, 2, 2, 2, 2, 2, 2. Row 2: (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank), (blank).

Figure 1.8 – Sample Excel template for syllabus bulk upload

Note: If the Topic Name and Subtopic Name are the same, enter only the Topic Name and leave the Subtopic Name field blank.

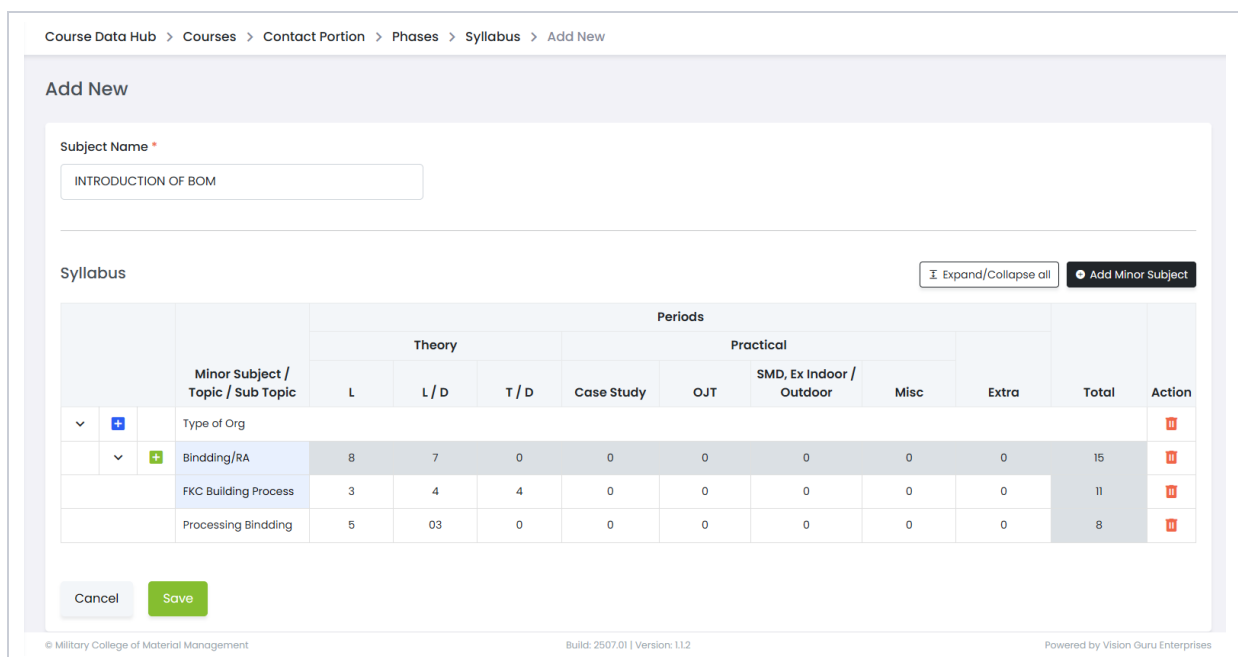

Step 6A: Prepare the Excel sheet with all the required syllabus details in the prescribed format, then click **Bulk Import** to upload the file into the system.

The image shows the 'Syllabus' page in the system. The breadcrumb trail is: Course Data Hub > Courses > Contact Portion > Phases > Syllabus. The page has a search bar, an 'Export XLSX' button, and an 'Action' dropdown menu. The dropdown menu options are: Add New, Bulk Import, and Download Sample. The main content area shows a table with columns: Subject, Theory Periods, Practical Periods, Extra Periods, and Total Periods. Below the table, there is a message: 'No record available! It seems, data or information not found.'

Figure 1.9 – Syllabus page: Bulk Import option

Step 6B: For manual entry, click **Add New**. You will be redirected to a page where you can manually enter the Subject Name and the syllabus periods, then click **Save**.

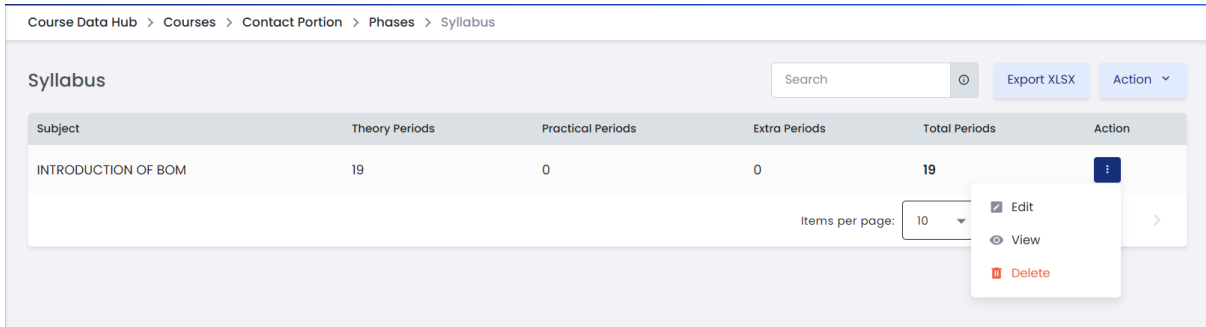

The image shows the 'Add New' form for creating a new syllabus. The breadcrumb trail is: Course Data Hub > Courses > Contact Portion > Phases > Syllabus > Add New. The form has a 'Subject Name' field with the value 'INTRODUCTION OF BOM'. Below this is the 'Syllabus' section, which includes a table with columns: Minor Subject / Topic / Sub Topic, L, L / D, T / D, Case Study, OJT, SMD, Ex Indoor / Outdoor, Misc, Extra, Total, and Action. The table contains three rows of data: Type of Org, Binding/RA, FK Building Process, and Processing Binding. At the bottom of the form are 'Cancel' and 'Save' buttons. The footer of the page includes: © Military College of Material Management, Build: 2507.01 | Version: 1.1.2, and Powered by Vision Guru Enterprises.

Figure 1.10 – Add New Syllabus (manual entry) form

Step 7: After successfully uploading the syllabus, a “Syllabus uploaded successfully” message will be displayed.

Note: The Edit and Delete options are available only while the course is not approved. Once the course is approved, these options will be disabled to prevent further modifications.

Course Data Hub > Courses > Contact Portion > Phases > Syllabus

Finally, you have successfully created the course structure. The course is now ready for creating Course Serials and adding the Content Library.

Why Create a New Version of a Course?

A New Version is created when the existing course structure or syllabus is updated. This ensures that the changes are applied to upcoming Course Serials, while previous versions remain unchanged for existing Course Serials.

How to Create a New Version?

Step 1: In the **Approved** tab, open the **Action** menu for the course and select **Create New Version**.

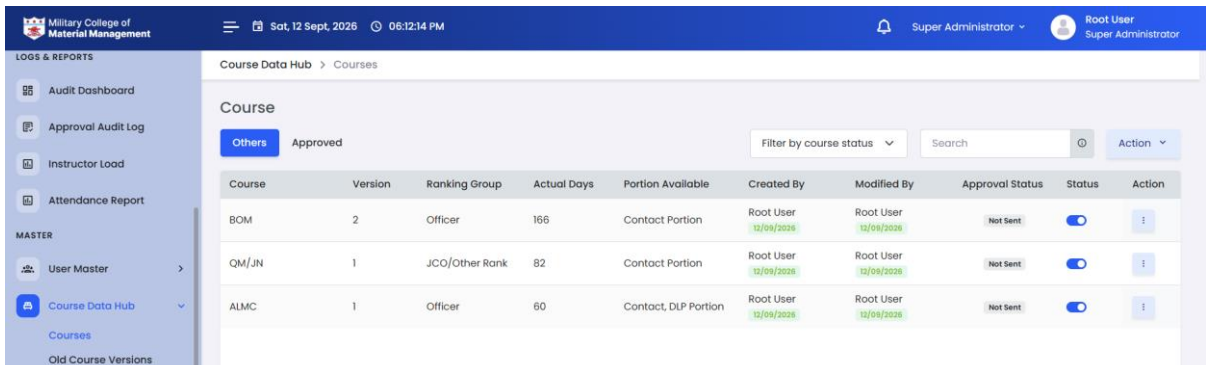

The screenshot shows the 'Course Data Hub' interface with the 'Approved' tab selected. The 'Action' menu is open for the 'BOM' course, showing the 'Create New Version' option. The table below represents the data visible in the 'Approved' tab.

Course	Version	Ranking Group	Actual Days	Portion Available	Created By	Modified By	Approval Status	Status	Action
BOM	1	Officer	166	Contact Portion	Root User	Aniket Shahu	Approved	On	⋮
Java MM	1	Officer	28	Contact Portion	Root User	Jitendra Mishra	Approved	On	⋮

ADM/CIV	1	Civilian	30	Contact, DLP Portion	Jitendra Mishra	Jitendra Mishra	Approved	On	⋮

Figure 1.19 – Approved Courses list: Create New Version menu

Step 2: The newly created version will appear under the **Others** section as the next version (for example, Version 2 if the existing version is Version 1). Follow the same steps used for the previous course creation process to complete the new version.

The screenshot shows the 'Course Data Hub' interface with the 'Others' tab selected. The table below represents the data visible in the 'Others' tab.

Course	Version	Ranking Group	Actual Days	Portion Available	Created By	Modified By	Approval Status	Status	Action
BOM	2	Officer	166	Contact Portion	Root User	Root User	Not Sent	On	⋮
QM/JN	1	JCO/Other Rank	82	Contact Portion	Root User	Root User	Not Sent	On	⋮
ALMC	1	Officer	60	Contact, DLP Portion	Root User	Root User	Not Sent	On	⋮

Figure 1.20 – Others tab showing the new course version

Note: Follow the same steps used for the previous Course Creation process to complete the new version.

Course Serial - Introduction

A Course Serial is a specific instance or batch of a course conducted at a particular time. It is created using the predefined Course Master structure and represents an individual run of the course — for example, BOM-101, BOM-102, or AMM-57.

This manual explains, step by step, how to create, configure, and approve a Course Serial within the Learning Management System (LMS). It covers plan creation, phase management, marking scheme configuration, and the final approval workflow.

Getting Started with Course Serial Creation

Step 1: On the top-right corner of the Annual Training Plan screen, click **Add New Plan**. You will be redirected to the plan-creation page, where all required information must be entered in the respective fields.

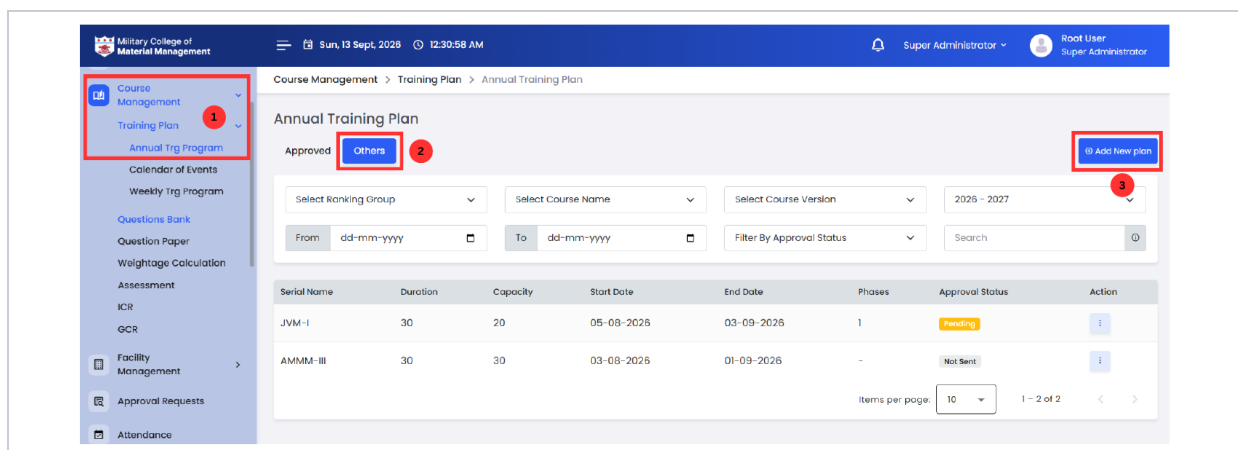

Figure 3.1 – Annual Training Plan: Others tab and Add New Plan button

Step 2: After entering all required information — Year Session, Ranking Group, Course Name, Course Version, Serial Name, Student Capacity, Duration, From/End Date, and Mother Faculty — click **Save**. You will be redirected to the Annual Training Plan page, where the phase dates can be managed.

Figure 3.2 – Add New Plan form

Editing The Course Serial Name and Actual Days can be modified only through the Edit option.

Step 3: Locate the Course Serial in the list, click the **Action** menu, and select **Manage Phases**.

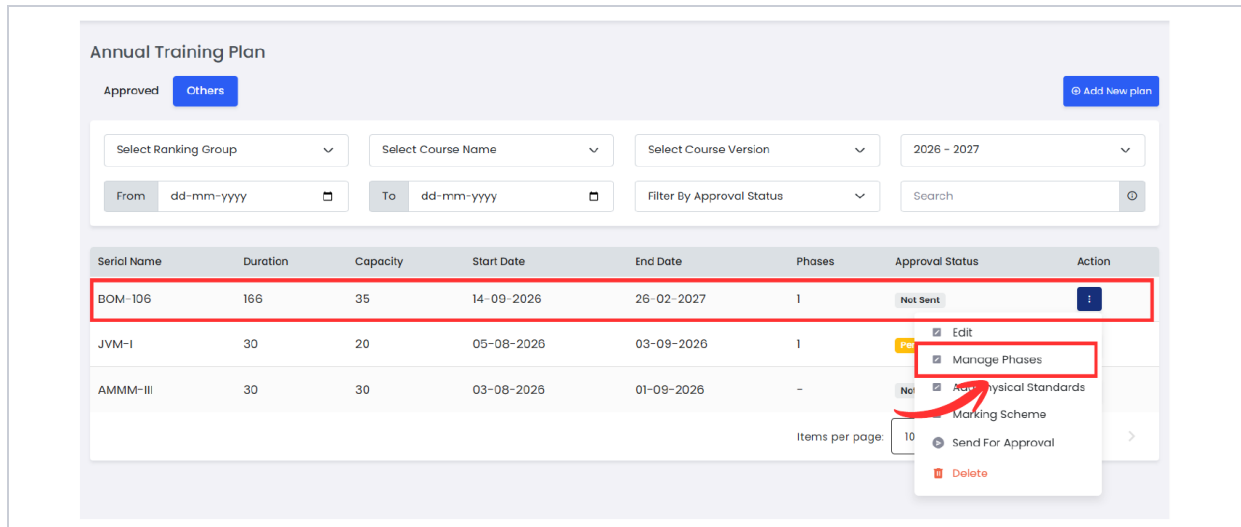

Figure 4.1 – Action menu: Manage Phases

You will be redirected to a page displaying all phases included in the course, along with a summary panel confirming that all phases have been listed.

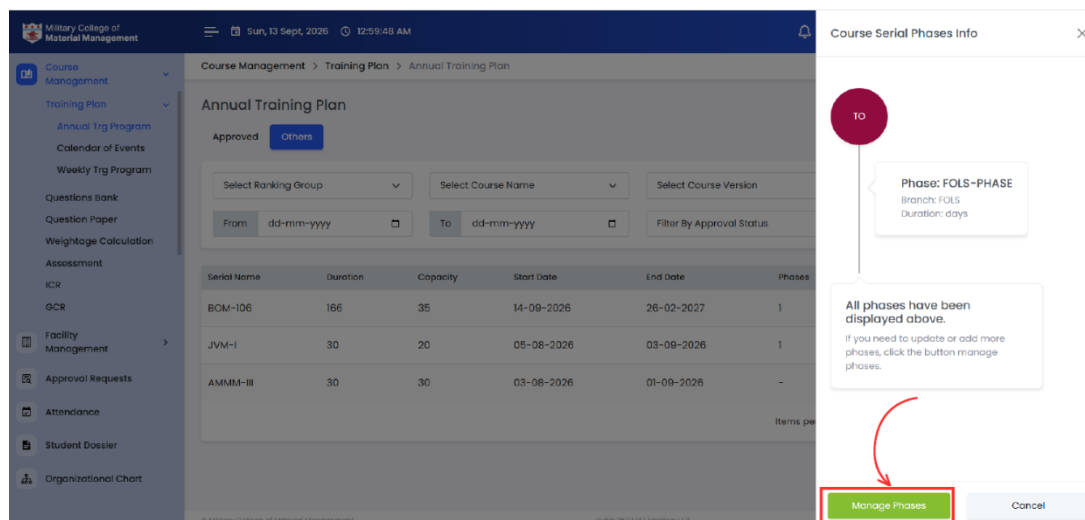

Figure 4.2 – Course Serial Phases Info panel

Step 4: Click **Manage Phases** to open the Phases page, where you can edit the phase date and name, add a new phase, and update the syllabus and periods.

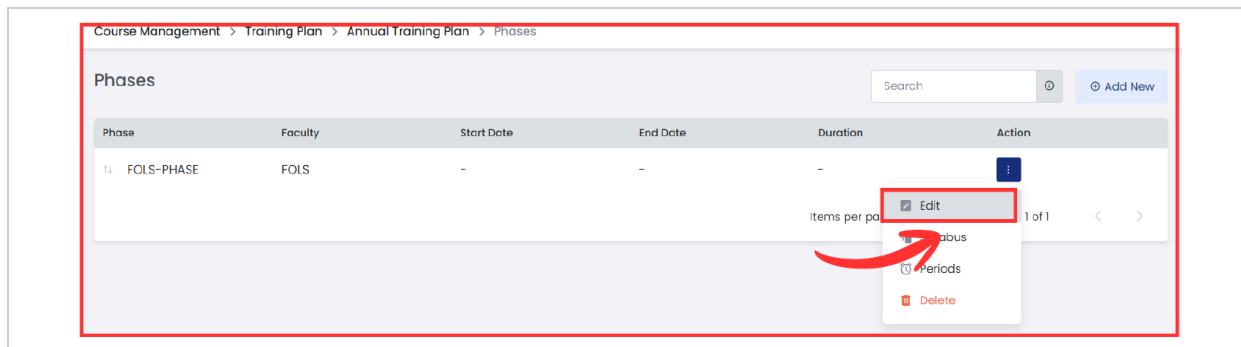

Figure 4.3 – Phases list with Edit option

Step 4A: After clicking Edit, enter the Phase Start Date and Phase End Date in the respective fields.

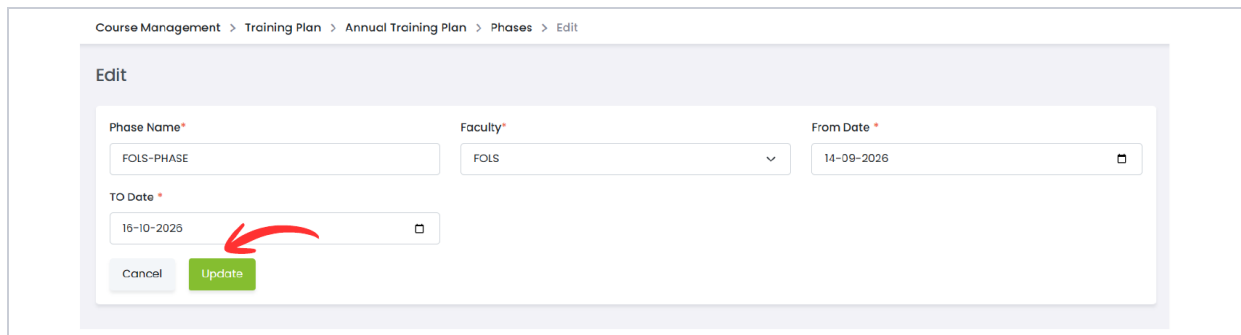

Figure 4.4 – Editing phase start and end dates

Step 4B – Confirm Updated Details

Fill in all required information and click Update. The Phases list will refresh to display the updated duration and dates.

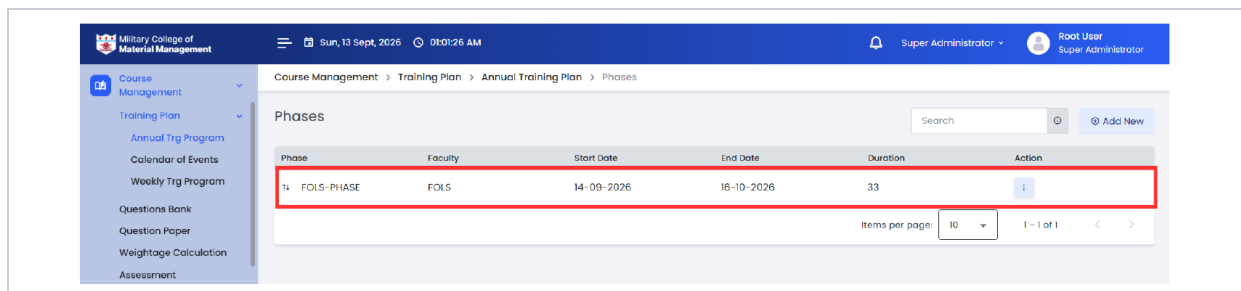

Figure 4.5 – Updated phase entry with calculated duration

Note: Review the Phase From Date, To Date, and Faculty details carefully before submitting the Course Serial for approval. Once the Course Serial is approved, these details cannot be modified.

Creating the Other Assessment Marking Scheme

Step 5: From the Annual Training Plan landing page, open the **Action** menu for the relevant Course Serial and select **Marking Scheme**.

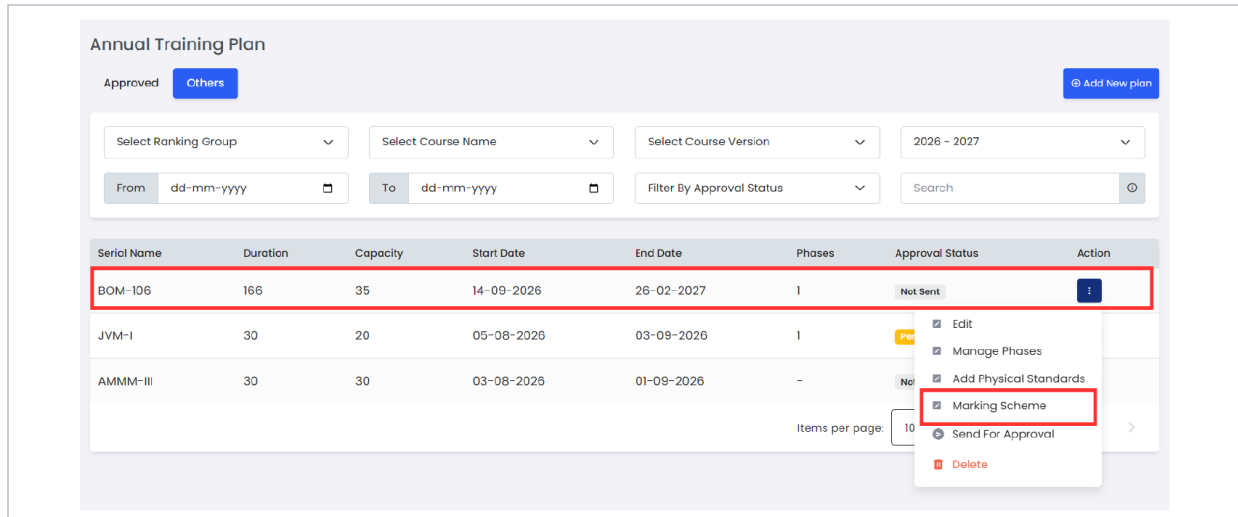

Figure 5.1 – Action menu: Marking Scheme

Step 6: After clicking Marking Scheme, you will be redirected to the Marking Scheme page. Two options are available:

- Copy Marking Scheme from a previous Course Serial.
- Add the Marking Scheme manually.

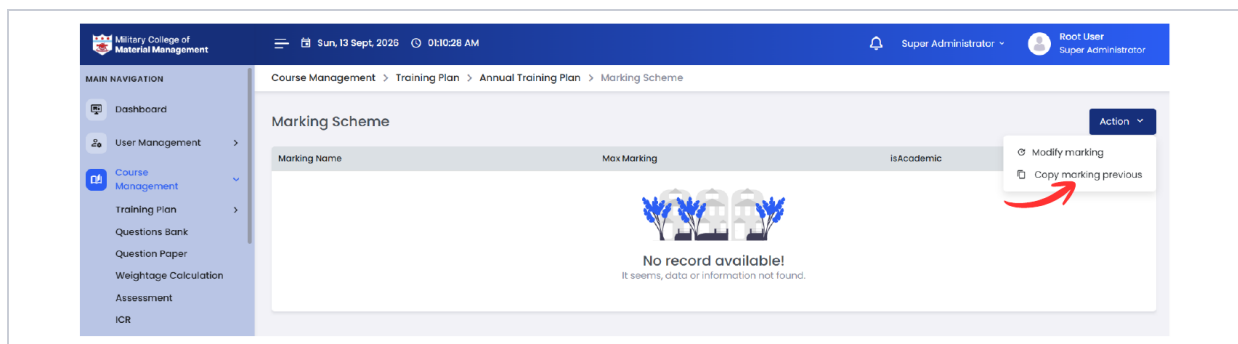

Figure 5.2 – Marking Scheme page (no existing record)

To add the marking scheme manually, click **Modify Marking Scheme**. Enter the Marking Name, Max Marking, and Appointment for each entry, and specify whether it is academic.

Modify Marking

Please look it!
While creating the marking scheme, you should not create a scheme for phases.

Marking Name	Max Marking	Appointment	IsAcademic	Action
FOCT CDR	10	Course Officer(cik)	☐ Yes ☒ No	
ENT TEST	15	GSO1 x GSO2 x DC & CI	☐ Yes ☒ No	
CQT-I	10	FOM FAC CDR x GSO1 x DC & CI	☐ Yes ☒ No	
CIQT-I	15	GSO2 x GSO1 x DC & CI	☐ Yes ☒ No	

+ Add More

Cancel Save

Figure 5.3 – Modify Marking form

Note: In the Appointment field, select the appointments responsible for awarding the marks. The created Marking Scheme will be visible under Course Assessment → Other Marks.

If the course includes a Physical Standard, click Add Physical Standard to define the required standards. The configured physical standards will be visible under Course Assessment → CPET / BEPT / PPT Grading.

Finalizing and Submitting for Approval

If applicable, select **Add Physical Standards** from the Action menu to define the required physical standards for the course.

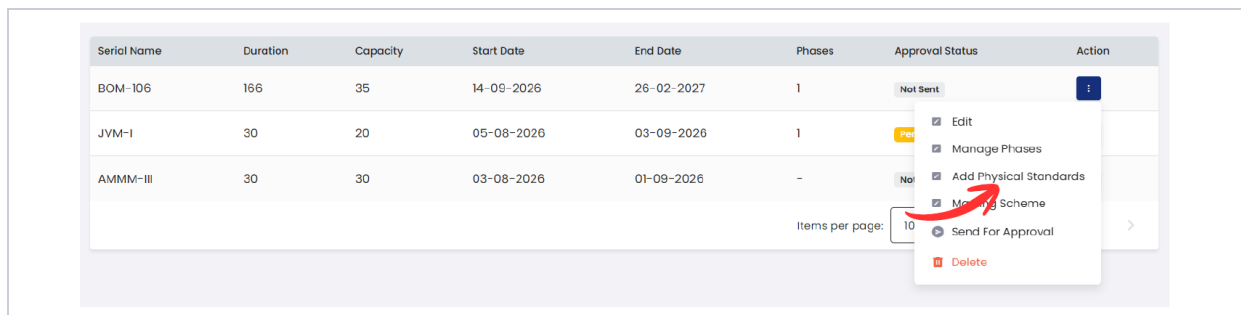

Figure 6.1 – Action menu: Add Physical Standards

Before clicking Send for Approval, carefully review all required information and course details. Once the Course Serial is approved, no changes can be made to the approved details.

Final Step:

After reviewing all required information, click **Send for Approval** to submit the Course Serial.

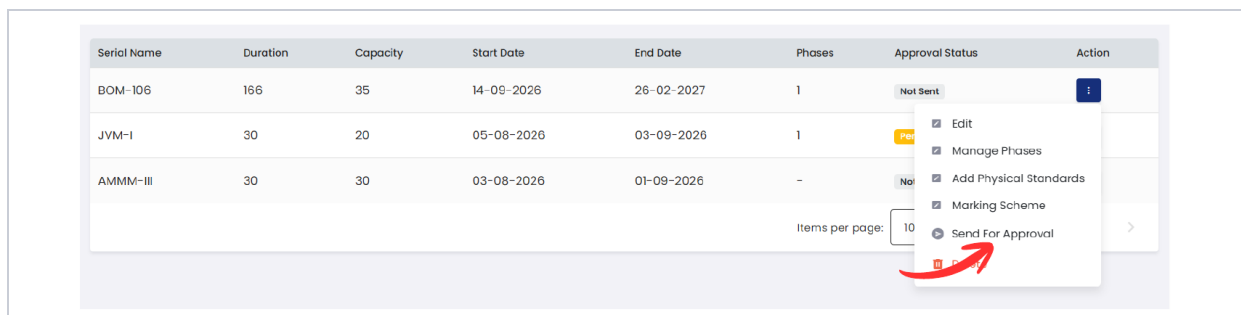

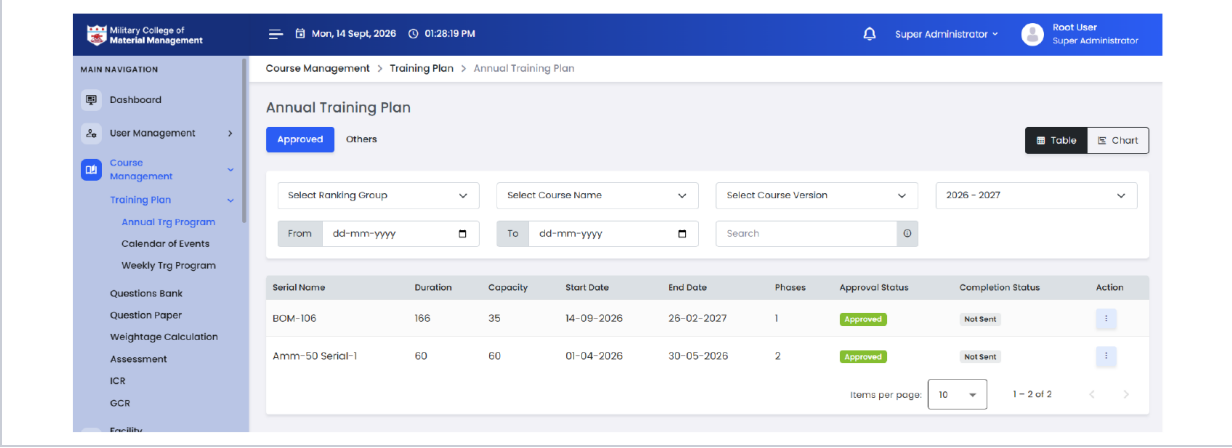

Figure 6.2 – Action menu: Send for Approval

Viewing the Approved Course Serial

To view the approved Course Serial, navigate to the Approved section. Approved serials are displayed according to the Training Year.

The screenshot displays the 'Annual Training Plan' section of the LMS. The left sidebar contains a 'MAIN NAVIGATION' menu with options like Dashboard, User Management, Course Management, Training Plan, and others. The main content area shows a breadcrumb trail: 'Course Management > Training Plan > Annual Training Plan'. Below this, there's a tabbed interface with 'Approved' and 'Others' tabs. A filter section includes dropdowns for 'Select Ranking Group', 'Select Course Name', 'Select Course Version', and a date range '2026 - 2027'. Below the filters is a table listing approved courses. The table has columns for Serial Name, Duration, Capacity, Start Date, End Date, Phases, Approval Status, Completion Status, and Action. Two courses are listed: 'BOM-106' and 'Amm-50 Serial-1'. Both have an 'Approved' status and a 'Not Sent' completion status. At the bottom right, there's a pagination control showing 'Items per page: 10' and '1 - 2 of 2'.

Serial Name	Duration	Capacity	Start Date	End Date	Phases	Approval Status	Completion Status	Action
BOM-106	166	35	14-09-2026	26-02-2027	1	Approved	Not Sent	i
Amm-50 Serial-1	60	60	01-04-2026	30-05-2026	2	Approved	Not Sent	i

Figure 6.3 – Approved Course Serial list

Content Library - Introduction

The Content Library enables instructors to organize and upload content, marking it easily accessible for trainees.

Getting Started with Content Library?

Step 1: Navigate to the left sidebar and select **Content Library**. The following page will be displayed.

The screenshot shows the 'Content Library' page. On the left is a sidebar with 'MASTER' and 'SITE SETTINGS' sections. The 'MASTER' section includes 'User Master', 'Course Data Hub', 'Content Library' (highlighted), 'Accommodation Resources', 'Approval Rule Engine', 'Holiday', and 'IT Asset List'. The 'SITE SETTINGS' section includes 'Home', 'Photo Gallery', and 'About Us'. The main area is titled 'Content Library' and contains several filter dropdowns: 'Course' (Select Course), 'Course Versions' (Select Course Versions), 'Phase' (Select Phase), 'Subject' (Select Subject), and 'Minor Subject' (Select Minor Subject). There is also a 'Search' field. Below the filters is a table with the following columns: 'Course Name', 'Phase Name', 'Subject Name', 'Minor Subject', 'Topic/Subject Code', 'Access to Foreigner', 'Created B', and 'Action'. The table contains four rows of data:

Course Name	Phase Name	Subject Name	Minor Subject	Topic/Subject Code	Access to Foreigner	Created B	Action
BOM	FOLS-PHASE	INTRODUCTION OF BOM	Type of Org	BOM-FOLS-INTR-TYPE-BIND-1878	No	Root User 23/09/2026	[i]
HOM	Phase-1	HOM INTRODUCTION	PROCESS OF HOM	HOM-FOCT-HOMI-PROC-BASI-TYPE-9440	No	Jitendra M 18/03/2026	[i]
HOM	Phase-1	HOM INTRODUCTION	PROCESS OF HOM	HOM-FOCT-HOMI-PROC-BASI-7947	No	Jitendra M 18/03/2026	[i]
JAVA FULLSTACK	Phase-1	INTRODUCTION OF JAVA	VARIABLE IN JAVA	JAVAFU-FOCT-INRO-VARI-TYPE-DOUB-9219	No	Root User 17/03/2026	[i]

Figure 7.1 – Content list: Filter and Add content action menu

Step 2: On the top-right corner, click the Action button. Two options will be displayed, as illustrated below. Then click on the Add New button.

This screenshot shows the 'Content Library' page with the 'Action' dropdown menu open. The menu has two options: 'Add New' (with a plus icon) and 'Export XLSX' (with a download icon). The 'Add New' option is highlighted with a red box.

Figure 7.2 – Action Menu: Filter and Add new

Step 3: After clicking **Add New**, you will be redirected to the following page. This page provides two options to add content to the library.

The 'Add New' page contains several dropdown menus for selecting content details:

- Ranking Group:** Select Ranking Group
- Course:** Select Course
- Course Version:** Select Version
- Phase:** Select Phase
- Subject:** Select Subject
- Minor Subject:** Select Minor Subject
- Topic:** Select Topic
- Sub Topic:** Select Sub Topic

Below these dropdowns, there are two input fields:

- Topic/Subject Code ***: Enter Topic/Subject Code
- Access to Foreigner ***: Radio buttons for 'Yes' and 'No' (with 'No' selected).

Figure 7.3 - Filter for fill topic/subtopic code

Step 4A: Use the filter option to avoid manually entering Topic/Subtopic codes. Select the appropriate filters—at minimum, choose the Topic field—and the system will automatically populate the required fields.

The screenshot shows the 'Add New' form with the following values:

- Ranking Group: Officer
- Course: BOM
- Course Version: v 1 (latest)
- Phase: FOLS-PHASE
- Subject: INTRODUCTION OF BOM
- Minor Subject: Type of Org
- Topic: Binding/RA
- Sub Topic: FKC Building Process
- Topic/Subject Code: BOM-FOLS-INTR-TYPE-BIND-FKCB-1074
- Access to Foreigner: No

The 'Content Details' section shows a table with columns: File Type, Upload File, Author Name, and Action. The 'File Type' dropdown is set to 'Select file type'. The 'Upload File' section shows 'Choose File' and 'No file chosen'. The 'Author Name' field is 'Enter author name'. There is an 'Add More' button and 'Cancel' and 'Save' buttons at the bottom.

Figure 7.4 – show the Filter apply and fill topic/subtopic code

Note: If topic contain subtopic, avoid adding content using topic. Always add content using the subtopic.

Step 4B: You can directly enter the Topic/Subtopic code from the Course Data Hub Syllabus. Enter the topic code in the Topic Code field, as shown in the image below.

The screenshot shows the 'Add New' form with the following values:

- Topic/Subject Code: Enter Topic/Subject Code
- Access to Foreigner: No

The 'Content Details' section is the same as in Figure 7.4.

Figure 7.5 – Enter Direct topic/subtopic code

If the topic name and subtopic name are the same, make sure to add content using the subtopic code. Otherwise, the content will not be accessible to trainee and instructor.

How to get topic/subtopic code?

Step 4B.1: From the left sidebar, select Course Data Hub. On the next screen, click on Approved, as shown in the image below.

Course	Version	Ranking Group	Actual Days	Portion Available	Created By	Modified By	Approval Status	Status	Action
BOM	1	Officer	166	Contact Portion	Root User 12/09/2026	Aniket Shahu 12/09/2026	Approved	On	⋮

Trainee Management - Introduction

A Trainee management is used to enroll and manage trainee in a course serial. It supports different type of trainees, including Officers, JCOs/Other Ranks, Agniveers and Civilians.

Getting Start with trainee creation :-

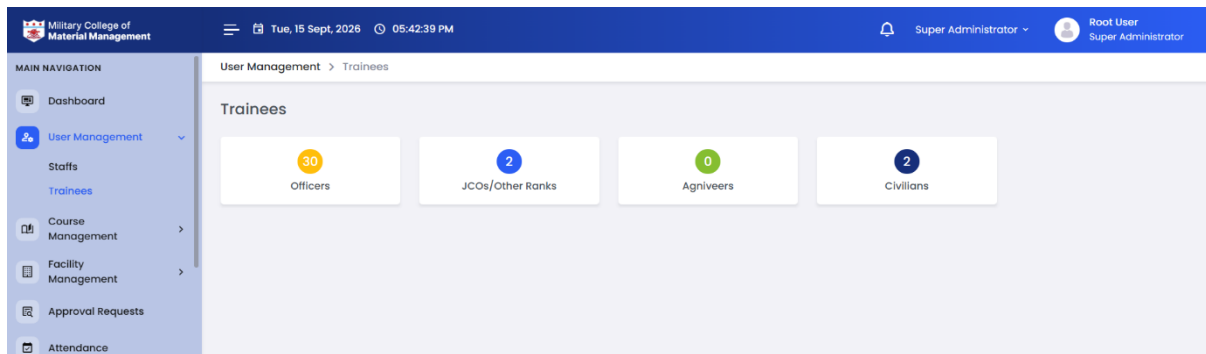

Figure 8.1 – User Management Trainees Dashboard

Select the required Enrolment User Type. Based on your selection, the system will display the relevant options and fields for that trainee category. Choose the appropriate option and proceed with the enrolment process.

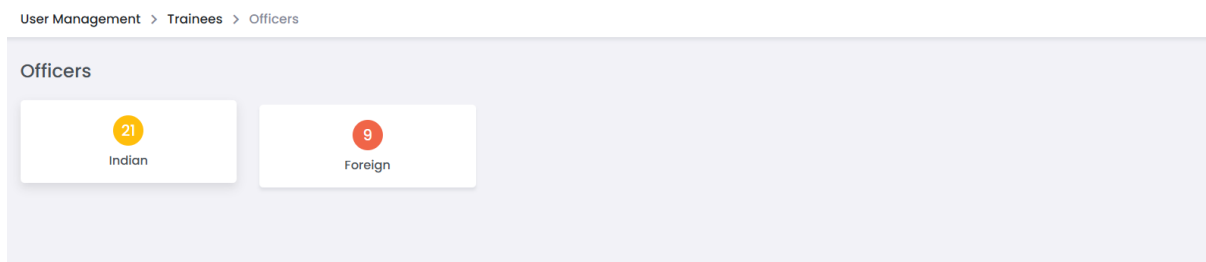

Figure 8.2 – officers Enroll type

You have two options to add trainees: Manual Creation to add trainees individually, or Bulk Add to add multiple trainees at once by filling in all the required details on the following page.

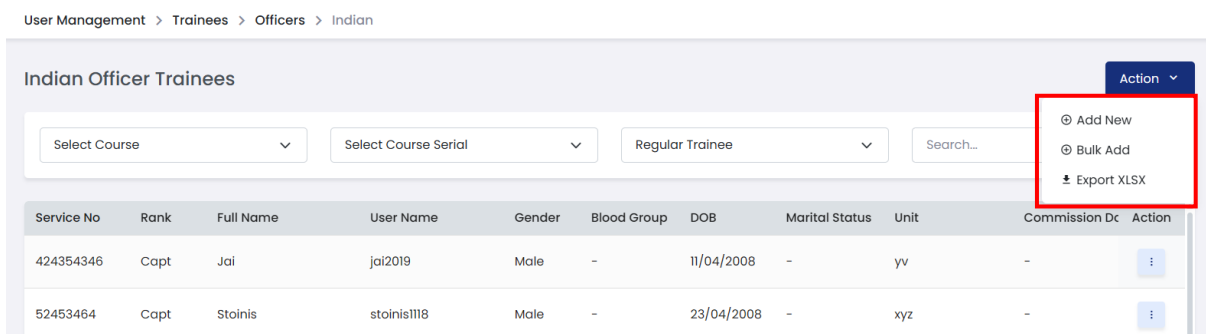

Figure 7.3 – Action Menu: Add New And Bulk Add trainee

After clicking Bulk Add, you will be redirected to the following page. Fill in all the required details to add trainees in bulk.

User Management > Trainees > Officers > Indian > Bulk Upload

Bulk Add

Course * Course Serial *

BOM BOM-106

Sr	Service Number	Rank	Full Name	Gender	Date Of Birth	Unit	Password
1	IC2025945	Maj	Rahul Kumar	Male	14-02-1998	JQT-42	*****
2	IC8678567	Capt	Gaytri Singh	Female	14-06-1996	CTR-98	*****

[Add More](#)

[Cancel](#) [Bulk Upload](#)

Figure 8.4 – Bulk Upload trainee Details

Click Bulk Upload. You will be redirected to the following page, where the system generates the trainee username. Use the generated username and password as the trainee's login credentials.
